PROFILE

Young, driven web designer with a history of delivering creative projects on time and under budget. Adept in both web and graphic design, with expertise in SEO, web server administration, and the Adobe Creative Suite. I have been creating web pages since 2014, and have designed numerous projects ranging from full sites to freelance graphic design work. My specialization is in front end design and creating back end solutions to enhance the user experience. I enjoy diverse projects and new challenges, especially the opportunity to learn new technologies and methods. I enjoy receiving input from clients, and I don't consider a project complete until their vision is a reality.

NOTABLE PROJECTS

Web and Graphic Designer, Devin Developed It

Aug 2020 — Present

Devin Wygal is a music producer and engineer based in San Marcos, Texas. I have been his sole web and graphic designer since he began selling his work online.

Web Designer/Server Administrator, hellokarll

Apr 2021 — Present

hellokarll is an independently-owned online print shop and boutique based in Austin, Texas. I am the company's lead web designer and server administrator.

Developer, Flamingo Client

2020

Flamingo Client is an open-source markdown web language-editor I created using Electron JS that is available on GitHub to download packaged or via NPM.

Co-Founder and Web Designer, Radicool Supply Co.

Dec 2015 — 2019

Radicool Supply was a skateboard apparel brand co-founded by myself and my friend, Riley Tatum in high school. I designed a site that implemented Shopify for the store platform.

EDUCATION

B.S. in progress, Texas State University

Aug 2018 — Present

Currently studying Digital Media Innovations, expected to graduate Spring 2022

A.S., Houston Community College

Aug 2016 — May 2018

Graduated with Associate in Science at sixteen years old
